

DIY!!Draw It Yourself:

Event Description:-

DIY: Draw it yourself. Often a Civil engineer comes across floor plan and other specifications. Why not test your basics of plan elevation and section learnt in initial years of Bachelors. The event shall have teams with three members. After observing the provided floor plan details and specifications plan, elevation and section shall be created by the team. Let's start planning...!!!

Event Rules:-

1. Team of 3 students required for eligibility.
2. Random floor plan details of any residential building with orientation shall be provided.
3. Team shall have to prepare floor plan, elevation and section in co-ordination with each other.
4. Each team member at their home shall prepare floor plan, section and elevation in a sheet with pencil and scale. (*Preference: A4 size sheet*)
5. Each team member shall have to mention their unique registration-id on sheet.
6. A preparation time of 35 minutes shall be given.

Judging Criteria:-

- Teams will be judged on accuracy of floor plan elevation and section and relevance with each other. Team leader shall have to submit their preparation of plan elevation and section attached to a specified email-id as soon as they finish within allotted time.
